### What is Anthroposophy?

~~~~~  
Anthroposophy is a path of knowledge that guides the spiritual in the human being to the spiritual in the universe. It was inaugurated by the Austrian spiritual scientist Rudolf Steiner (1861–1925).

Anthroposophy is there for anyone who is seeking to lead a conscious spiritual life.

Insights gained through Anthroposophy and anthroposophic meditative life can be applied in all areas of human life. **Steiner Education, Biodynamic Agriculture, Anthroposophic Medicine, renewal of the arts and religion, Goethean Science** and **Social Threefolding** are just some examples.

~ ~ ~

In the Anthroposophical Society members come together to cultivate the awareness of the spirit in our lives and in society. **The General Anthroposophical Society** is the world body for Anthroposophy with its centre in Switzerland. It comprises many country societies, including the **Anthroposophical Society in Australia**.

Anyone can join the Anthroposophical Society through a local branch and become the member at the national and the world levels.
