The Stream of Life research group present  
3<sup>rd</sup> Etheric Geography webinar  
30 October 2021

## ***Finding the path to the future through cosmic & earthly renewal of the Script in ourselves***

---

This 2-hour webinar continues the themes of our previous *World Script* webinars with a program of lectures and contemplative imaginations. The **Cosmic Sun** will be our guide, leading us to Advent, the festival of light.

### **What is it about?**

As we move towards the year's end, we look to possibilities of renewal through deepening the Cosmic Sun forces in our daily life. Continuing with the macrocosmic, mesocosmic and microcosmic theme, we will deepen our connection to the salutogenic forces in thinking and imagination. For when we connect to the source of living thought, we ignite the generative forces in our being.

# Program Briefs

## 4.15pm Martin Samson

- Around the time of the December Solstice the Archangel Uriel works with the forces of summer for the renewal of head forces and human wisdom. These spiritual forces which become active in the human head, sense perception and thought renew the material foundation of spiritual life. This talk will introduce the macrocosmic aspect of how, between the start of November and the end of January, the co-operation between human spiritual work and the work of the archangels in relation to the sun, moon and the starry constellations create new cosmic imaginations or starry song lines.

## 4.45pm Dr Fiona Campbell

- This visual talk looks at the source of creativity and where new ideas come from.
- Then we learn to how to strengthen our capacity for deep thinking, with contemplative exercises based on the vortex-created space in water dynamics.

## 5.15pm Irmhild Kleinhenz

- Building on the salutogenic picture of true health, this talk is about the role of the Etheric Christ, our Cosmic Sun, in the healing forces needed in the times of both physical and mental illness.

## 5.15 Artistic presentation to close the afternoon
