## About the Lecturers

Stephanie Isvik - A bit about me and what makes me excited about celebrating Michaelmas and learning more about Michael's call to us . . . well, I can say sincerely that seeking the path of Christ and of Michael is deeply important in my life. My ancestors followed an external path from Norway to the USA, and my journey led to Australia in my youth. In Australia I discovered Anthroposophy which has been the greatest blessing of my life. It has deepened my commitment to Christ and to Michael, His messenger. It has informed my life's work in the social realm where I've worked in community and health service management for over 30 years. So I feel very privileged to speak and work within the Michael and Christ stream wherever there are fellow seekers who can seek with me through Christian festivals, Classes of the Michael School of Spiritual Science or Anthroposophical gatherings!

Atika Rea - Atika was a gold and silversmith. After transforming precious metals into beautiful jewellery pieces, she turned her attention into transforming the earth into a precious jewel. Atika has been teaching biodynamic gardening at the Michael Centre for 8 years and now maintains the existent vegetable gardens based on Biodynamic practices with volunteers.

Lukas Ryan - Lukas has been a student of Anthroposophy for many years. His career has been in psychology and counselling and he is also trained in Biography Work consulting. Lukas' artistic expression is painting.
