Exploring Temperament, Soul Type, Repetitions and Patterns in Life

Two archetypes offer guiding images for this workshop:

- ① The four-fold archetype for Temperaments which are, also related to the four elements earth, water, fire and air.
- ② And the seven-fold archetype of those seven planets visible to the naked eye.

Seven Qualities and Rhythms, derived from the archetypal image of the Planets are introduced as windows for creatively exploring events and qualities in human biography and personality. The Seven Soul Types each give a distinct soul colouring which influences us in the way we meet people and situations. Insights into the Four Temperaments help us to understand habitual patterns. The way our Temperament and Soul Type interrelate, affects many aspects of our lives including our inner balance.

The reflective- and self-reflective work on this course gives dynamic and qualitative perspectives on one's own and other personalities.

Our exploration will be supported with creative exercises.
