

Asia-Pacific Rhythmical Massage Therapist Training Program (AP-RMTT) 3 years program (2024 – 2026)

General Introduction

A training in Rhythmical Massage Therapy as indicated by Dr. Ita Wegman & Dr. Magarethe Hauschka starting January 2024 over 2.5 years, 5+ modules. The course is strongly experiential and includes:

- Intensive practical training sessions of the basic principles and practices of Rhythmical Massage Therapy.
- Medical studies that expand the natural scientific understanding with the holistic approach.
- Medicinal plant studies.
- Introduction to hydrotherapy and external applications including the knowledge and use of aromatic oils.
- Professional and personal development studies and artistic activities

Training involves not only mastering the techniques of the massage itself, but also developing an understanding of the human being in health and illness, both from a conventional and anthroposophic perspective. Students learn a subtle rhythmic quality of touch, which works to strengthen and enliven the life supporting processes in the human body.

Teaching and learning take place through a combination of lectures and hands-on practice, mixed artistic media exercises, discussion groups, tutorials and case studies. Through this the students can develop a thorough, in-depth and holistic approach to the theory and practice of rhythmical massage therapy. Throughout the course, study-skills support is provided through tutorials and mentoring sessions.

Graduates will receive a Diploma accredited and recognized by the International Coordination of Anthroposophic Medicine (IKAM) and Anthroposophic Medicine Benchmarks published by WHO further ensures qualified practice.

Course aims and objectives

- Teach and understanding of the Anthroposophic approach to the human being.
- Fully Train students in rhythmical massage therapy in theory and technique.
- Integrate massage practice with theoretical approaches to health and illness.
- Acquire a deep understanding of rhythmical massage therapy and its effects on the emotional, physical and spiritual well-being of the human being.
- Fully understand the contra-indications and cautions.
- Develop appropriate communication skills to work effectively with clients, colleagues and the wider community.
- Inform students of placement opportunities in rhythmical massage therapy.
- Inform students of employment opportunities in Anthroposophic practices and elsewhere.
- Inform students of how to set up and develop in practice which includes practice management.

Learning outcome to support students in acquiring knowledge and understanding of

- Rhythmical massage therapy technique and theory.
- Anthroposophic medical studies.
- Personal growth and development throughout the training.
- Anthroposophic spiritual sciences.
- Introduction to hydrotherapy and external applications/remedies.

Main Faculty of AP-RMT Training Program. (ASIA-PACIFIC RHYTHMICAL MASSAGE THERAPY)

Aoine Landweer-Cooke

Was born to non-Irish artist parents. Studied in the UK, Germany and USA. She has been resident based mainly in the UK and Ireland. With over forty years experience in health care professions and thirty-five years as a bodyworker, specialising in Rhythmical Massage Therapy, (as indicated by Dr Ita Wegman). Her main areas of expertise are as a practitioner, trainer, supervisor and mentor, working in clinical/hospital settings as well as private practice. She is

currently engaged in trainings in the USA, UK, India, Israel and Thailand. She is a CPD (continuing professional development) consultant, supervisor, mentor and tutor especially in the broad field of bodywork trainings and practices, with significant knowledge and expertise in RMT. Group dynamics and company teams have been her leading field of interest and proficiency in terms of management and guidance. Trainings in facilitated mediation, conflict resolution and negotiation skills play an ever increasing valuable role in change-dynamics. Her approach is underpinned by an integrative philosophy of learning as well as phenomenological application and study pathways.

Sridhar Reddy

Dr Patlola Sridhar Reddy holds a Bachelor of Physiotherapy from Mangalore University, followed by his masters with specialization in Neurology, Dr MGR Medical university. He is on a panel, as consultant to NRSA Department of Space Government of India. He engaged in further training, within the field of Anthroposophy and is certified as an Anthroposophic physiotherapist by the Medical Section Goetheanum Switzerland, having also completed his Diploma training in Rhythmical Massage Therapy, Germany. Currently he is successfully able to integrate mainstream physiotherapy and Anthroposophic physiotherapy in his practice in India.

Kan-anek Kaewthaweesab

is an individual anthroposophic physician. His medical work originates from the mainstream medicine. He studied several types of complementary medicine and applied this to his clinical practice. He is the general secretary of the Anthroposophic Medicine Association Thailand (AMAT). He also serves as the organizer of anthroposophic medical training for physicians and therapists in Thailand. When he first encountered anthroposophic medicine, he suddenly realized

the important of this medical approach as the medicine of humanity. He transformed his clinical practice by using the concept of anthroposophic medicine as the center of practice. He is also certified in Classical Homeopathy, Acupuncture, Naturopathy, and Spacial Dynamics. He teaches and lectures in the anthroposophic medical training in Thailand, Taiwan, Indonesia and Switzerland; The International Integrative Oncology Training in Thailand and India; The Asia-Pacific Anthroposophic Pharmacy Training; The Asia-Pacific Curative Education and Social Therapy Training.

Dr.Kan-anek graduated from Phramongkutklao College of Medicine and completed his Master degree in Anti-aging and Regenerative Medicine, Mae Fah Luang University, Thailand.
